

*Our experienced designers will create the perfect planting design with your taste, home and neighborhood in mind.*

*We can provide you with a complete landscape service from start to finish.*

- ... starting with a site visit*
- ... designing the landscape plantings, walls and patios*
- ... complete installation by our own staff*
- ... services to make do-it-yourself easier*
- ... maintenance services available after installation*

## *Site Visit*

*You may schedule an initial consultation with one of our designers to come to your home to discuss and determine the type of design that would best fit your garden project. There will be a \$50.00 charge for the initial consultation. This charge can be avoided if you can bring adequate pictures and dimensions of the area to us. Pick up a We Plan You Plant brochure to assist you in the process.*

## *Design*

*Designs can be scaled plans or a computer rendering and come with a cost estimate for the planting materials you will need to complete the garden project. Delivery and/or labor charges will be provided as well if requested. At The Garden Barn we will have an opportunity not only to go over costs but will also be able to show you the plants that will be used for your home. Design fees will be determined at the time of your site visit, and may vary depending on the extensiveness of the individual design.*

*On site consultations and landscape installations are offered in the towns of Andover, Bolton, Coventry, East Windsor, Ellington, Enfield, Glastonbury, Hebron, Manchester, Somers, South Windsor, Tolland, Vernon, Wethersfield, Windsor & Willington*
