

# You've just taken the first step in creating a beautiful outdoor living space!

We would be pleased to help you find the right plants for the right space and create a design so they thrive for years to come. Creating a landscape gardening plan is a fun, creative process. You can count on friendly, knowledgeable staff to find your personal vision. We can help step by step to ensure your success!

## Let's get started!

### First

We will need a quick sketch of the area to be created with dimensions on the graph paper provided

### Second

#### Site Information

- A. What direction does your house or the area to be worked on face? N S E W
- B. How much sun does the area get? \_\_\_\_\_
- C. Are there any overhanging trees? \_\_\_\_\_
- D. Does the soil look rich or sandy? \_\_\_\_\_
- E. Does water puddle in the area? \_\_\_\_\_
- F. Is the area protected or windy? \_\_\_\_\_
- G. Do you or your neighbors have problems with deer eating plants? \_\_\_\_\_
- H. Any other site information we should know?  
\_\_\_\_\_

### Third

#### Preferences

**If you don't have any we'll show you the way!**

- A. Do you have any favorite plants you would like us to design in?  
\_\_\_\_\_

- B. Do you have any color theme in mind? \_\_\_\_\_

- C. Do you have a preference to mulch color or the use of decorative stone? \_\_\_\_\_

- D. How about edging? \_\_\_\_\_

### Fourth

#### Design

Designs range from simple sketches to computer renderings. Your designer will determine the cost based on the scale of your project and method of design. Design fees may be rebated when plant purchases are made.

### Fifth

#### Photos

Take some photos of the area at different angles OR we have the capabilities for computer aided design if you have a digital camera. Just bring in your camera and cord or put the pictures on a CD.
